PROFILE

Highly skilled Senior Software Engineer with over 5 years of experience in full-stack web development and dev-ops with a proven track record of delivering high-quality, scalable, and robust software solutions. My passion for technology and my desire to always continue learning drive me to leverage my skills to the best of my abilities and to truly enjoy building.

EXPERIENCE

Senior Software Engineer, Equips — June 2023-Present

- SME for AWS, deployments, and dev-ops for all applications for the team. Collaborated with Tech Lead and CTO to advance the utilization of the platform to reach the companies goals
- Collaborated with cross-functional agile team including project manager, designers, and software engineers to define project scope, requirements, and timelines
- Contributed to developing new features on all aspects of the application including GraphQL API, React UI, PostgreSQL and Dynamo DBs.

Software Engineer, Silicon Valley Bank (SVB) — June 2022 - June 2023

- Collaborated with a team of full stack engineers to develop the sales acquisition application and integrate it with the Fenergo SAAS platform.
- Developed onboarding process for new members of the team to quickly become effective contributors.

Software Engineer, USAA — 2018 - June 2022

- Contributed along with cross-functional agile teams of engineers, designers, and project managers on three separate projects that included legacy applications, Greenfield development, CI/CD, and integration.
- Lead efforts to modernize systems by utilizing Java Springboot, React, Openshift, Gitlab CI/CD, TDD methodologies, and agile practices.

EDUCATION

Western Governors University - IT Management - B.S. Business Administration - 2018

SKILLS

- Proficient in Typescript, Javascript, React, Node.js, Terraform, and GraphQL.
- Experienced building with GitLab CI/CD, AWS, Serverless, Docker, and Kubernetes.
- Soft skills include clear communication, teamwork, collaboration, ability to learn, and prior experience.
